## FRONT END WEB AND WORDPRESS DEVELOPER

### PROFESSIONAL SUMMARY

I am a passionate Front End Web Developer t. I have expertise in HTML/CSS, JavaScript,. I have developed numerous websites and web applications that are fast, secure, and user friendly. My ability to work collaboratively with clients, design teams, and developers has enabled me to create successful websites and web-based solutions for my clients. My biggest achievement is developing an e-commerce platform for a global client that generated more than million in sales in its first year. I also have excellent communication and problem-solving skills that help me to create the best possible solutions for my clients. I'm highly organized, detail-oriented, and committed to meeting deadlines.
